PROFESSIONAL SUMMARY

As a Frontend Engineer with a freelance background, I excel in transforming client requirements into responsive, high-performance websites. My proficiency with React.js and problem-solving techniques has continuously improved project results and user experience. I've produced projects that surpass expectations by utilising my abilities in API integration and performance optimisation, demonstrating my dedication to excellence and innovation.

SKILLS

Front end web development   End-to-end testing   Responsive design   Performance optimization

React.js framework   CSS3 proficiency   Node.js environment   Version control   Problem-solving

Javascript   API integration

PROJECTS

MavlonTours
https://mavlontours.com/
- Comprehensive Travel website for a small business.
- Implemented an intuitive navigation system, allowing users to easily explore tour packages, services and company information.
- Ensured cross-browser compatibility, conducting thorough testing to guarantee consistent functionality across major web browsers.
- Developed a responsive and user-friendly website for Mavlon Tours, ensuring optimal performance across various devices and screen sizes.

PERFUMERY
https://bimbos-perfumery-e-commerce.netlify.app/
- Implemented dynamic product displays and interactive features to enhance user engagement and facilitate seamless navigation.
- Developed a **scalable, RESTful API** using **Node.js** and **Express.js** to handle authentication, product management, and order processing.
- Designed and implemented a **secure user authentication system** using **JWT** to ensure safe user login and account management.

- Integrated **MongoDB** for efficient product catalog management and user data.
- Developed a **cart system** with real-time updates.

MOVIEBOX
https://hngtask2-movie-app.netlify.app/
- Developed a **responsive and interactive** movie application using **React.js**, ensuring a seamless user experience across devices.
- Integrated an **external movie API** to dynamically fetch and display movie details, including titles, genres, ratings, and descriptions.
- Implemented **search and filtering functionality**, allowing users to find movies efficiently based on specific criteria.
- Optimised API requests and handled **loading states and error handling**, improving user experience even with slow network connections.

EXPERIENCE

FRONTEND ENGINEER, Lagos, Lagos
Freelance, January 2024–Present

- Identified areas of improvement in existing web applications and provided solutions.
- Worked closely with product owners to understand customer requirements.
- Ensured that all development tasks are completed within the specified timeline.
- Built cross-browser compatible websites utilizing progressive enhancement techniques.
- Maintained code quality by following best practices while writing clean codes.
- Leveraged mastery of HTML, CSS, and JavaScript to build top-quality code for diverse projects.
- Provided technical support to end users regarding website issues.

FRONTEND ENGINEER INTERN – TEAM LEAD, Lagos, Lagos
Internpulse, February 2023–April 2023

- Led a team of 5 developers, assigning tasks, conducting code reviews, and ensuring project deadlines were met.
- Collaborated with back-end developers to ensure a seamless integration of the front-end with server side logic and integrate APIs ensuring seamless data flow.
- Facilitated daily stand-up meetings and maintained clear communication between team members
- Developed and maintained responsive web applications using React.js, JavaScript, and CSS.
- Implemented interactive UI components to enhance user experience and improve accessibility.

EDUCATION

JAVASCRIPT FULLSTACK ENGINEERING,   Lagos
Tech studio Academy, 2023
